CPIM - Certified in Production and Inventory Management ...
05003-2010 - The CPIM Reprints are compilations of articles on various topics and subtopics
covered in four modules of the CPIM curriculum. Selected by members of various APICS Curricula
and Certification Council subcommittees, the articles and case studies provide both theoretical and
practical perspectives to help candidates gain greater understanding when preparing for CPIM
exams.

Detailed Scheduling and Planning Reprints - APICS
Detailed Scheduling and Planning is appropriate for any operations staff member involved in supply
chain planning. It is the third module in a series of CPIM courses that includes Basics of Supply
Chain Management, Master Planning of Resources, Execution and Control of Operations, and
Strategic Management of Resources.

APICS Detailed Scheduling and Planning (DSP)
It includes a detailed explanation of material requirements planning (MRP), a technique suitable for
use in job shops. The course also introduces another material planning technique, material-
dominated scheduling, which is applicable to process industries and other mature production
environments.

Detailed Scheduling and Planning - APICS
The CPIM Detailed Scheduling and Planning Exam is the third of five exams created by the
Association for Operations Management, also known as APICS, that are administered by Promissor
and are required in order for an individual to receive a Certification in Production and Inventory
Management.
