

## *Brain Savvy Hr A Neuroscience Evidence Base*

### **Brain Savvy Hr A Neuroscience**

In HR, many practices we've inherited over the years don't work with the way the human brain works best. The latest findings from neuroscience can offer you a better understanding of your people. And by applying these findings you can get the very best from every brain in the business. Our book uses neuroscience...

### **Brain-savvy HR - Head Heart + Brain**

Why does HR need to be "brain-savvy"? Our book will tell you and guide you through how understanding neuroscience can help you be more successful. Click here to find it on Amazon. As HR professionals we spend a lot of time carefully planning our processes and policies. But when we crunch the numbers we're not being as effective as we should be.

Home / Books / Brain Savvy HR: A Neuroscience Evidence Base £ 14.99 This book uses neuroscience to help you define the guiding sense of purpose that's a key feature of effective HR leadership.

### **Brain Savvy HR: A Neuroscience Evidence Base - Head Heart ...**

Brain Savvy HR should be compulsory reading for every HR professional. It is well written, researched and referenced. As a book it would serve well as an introduction to the latest neuroscience research and findings, but equally it will be of interest to the more knowledgeable reader due not only to the depth in which the subject is covered but the practical explanations and applications.

### **Brain Savvy HR: A Neuroscience Evidence Base ...**

The book essentially seeks to make the connection between how the brain works and the way in which HR professionals can improve their contribution to organisational success. Jan Hills does this by challenging management theory, providing an evidence-based approach to HR and offering a convincing argument for persuading leaders to be more open to behaviour-change.

### **Book Review: Brain-Savvy HR by Jan Hills | HRZone**

We call all this "Brain-savvy HR," as a shorthand for HR practice that is informed by an understanding of how human brain works. We created this on-line programme as an introduction to neuroscience for HR: showing how it explains why people act the way they do; how we - and the people we work with - can change; and the way key concepts, like engagement, reward and motivation, work in the brain.

### **Neuroscience for HR - Head Heart + Brain Courses**

Head, Heart + Brain have delivered a best-in-class programme for our HR leaders of the future. It is

rare to work with an organisation who put such a personal effort into creating a bespoke leadership programme.
