International business refers to the trade of goods, services, technology, capital and/or knowledge across national borders and at a global or transnational level. It involves cross-border transactions of goods and services between two or more countries. Transactions of economic resources include capital, skills, and people for the purpose of the international production of physical goods and ...

Although the introduction of a number of successful management accounting innovations over the past few decades has generated a vast amount of research, we have limited knowledge about how the diffusion of innovations is affected by the interplay between characteristics of adopters and characteristics of innovations.

Adoption of management accounting innovations ...
A range of search terms and their synonyms are derived by decomposing RQ1 and RQ2. Boolean operators are used to guide the search within the databases (Table A1 in the Appendix). The returned studies are screened using the inclusion and exclusion criteria to ensure their relevance to the two research questions. A pilot search run was performed to further refine the selection criteria.

A unified BIM adoption taxonomy: Conceptual development ...
Nonprofit Management The Dawn of System Leadership. The deep changes necessary to accelerate progress against society’s most intractable problems require a unique type of leader—the system leader, a person who catalyzes collective leadership.
