Dance is a performing art form consisting of purposefully selected sequences of human movement. This movement has aesthetic and symbolic value, and is acknowledged as dance by performers and observers within a particular culture. Dance can be categorized and described by its choreography, by its repertoire of movements, or by its historical period or place of origin.

The best thigh exercises for you are the ones that don't simply firm and tone, but burn fat (see how to lose fat from thighs). If you don't burn fat, you won't get slimmer thighs. Thus, any thigh exercises that only firm thighs, but do not burn fat will do little to actually slim thighs, since your thigh muscles remain firmly hidden under a layer of thigh fat.

I'm a some-time opera singer and know what you're talking about. You can basically use the exercise Mark described to monitor this - check the movement of the boob on your belly and also monitor what your back is doing: you should feel it spreading and more of it will come into contact with the floor.
