

Glass Half Full Addiction Recovery

Glass Half Full Addiction Recovery

“Drug addiction” is a general term that refers to the compulsive need to seek and use substances, in spite of the harmful consequences. But in fact, drugs vary in their addictive properties, and social trends influence the popularity of certain drugs.

2019 Schedule - naadac.org

I'm constantly referencing this study in my writing, so I figured I should post up the main information from it here. The study is an analysis of data from 2001-2002 National Epidemiologic Survey on Alcohol and Related Conditions, or NESARC for short. This data is relevant because it comes from a survey representative of the [...]

Tips to Help Prevent Relapse, Stop Them Before They Happen

Major depressive disorder (MDD), also known simply as depression, is a mental disorder characterized by at least two weeks of low mood that is present across most situations. It is often accompanied by low self-esteem, loss of interest in normally enjoyable activities, low energy, and pain without a clear cause. People may also occasionally have false beliefs or see or hear things that others ...

Buprenorphine, sold under the brand name Subutex, among others, is an opioid used to treat opioid addiction, acute pain, and chronic pain. It can be used under the tongue, by injection, as a skin patch, or as an implant. For opioid addiction it is typically only started when withdrawal symptoms have begun and for the first two days of treatment under direct observation of a health care provider.

Planning Treatment in the Face of Client Resistance. Certain clients object even to the process of planning treatment. They may indicate that they “just want to talk” or that they “don’t really like things so structured,” or even that discussing a plan “feels like going through the motions” to fulfill someone else’s expectations.
