Driving under the influence is one of the largest risk factors that lead to traffic accidents. For people in Europe between the age of 15 and 29, driving under the influence is one of the main causes of mortality. According to the National Highway Traffic Safety Administration alcohol-related crashes cause approximately \$37 billion in damages annually.

Drivers are required to drive at a safe speed for conditions. In the United States, this requirement is referred to as the basic rule, but more generally in the United Kingdom and elsewhere in common law as the reasonable man requirement. The German Highway Code (Straßenverkehrs-Ordnung) section on speed begins with a statement which may be rendered in English:
