### **Inflation Implications For Property Casualty**

INFLATION IMPLICATIONS FOR PROPERTY/CASUALTY INSURANCE SUMMARY OF DISCUSSION PAPERS  
RICHARD E. MUNRO To say that inflation has become a way of life for us is a trite and tired expression which I could have left unsaid, but did not. Trite or not, it is a problem with which the property/casualty insurance industry has been contend-

Monetary inflation may not be a concern now, but many worry about the medium-term prospects. In the short run, a worldwide recession and depressed growth levels have kept the risk of inflation contained. But, quantitative easing -- the pumping of money by governments into the financial system -- could set the stage for a spike in inflation a few years from now.

The message for mid-sized clients in the UK has to be around the importance of risk management and loss avoidance and mitigation, whether it is flood risk or general commercial property/casualty exposures. With many sectors enduring intense competition and inflationary pressures, cost will come under increasing scrutiny in 2017.
