The New Living Translation (NLT) is a translation of the Bible into modern English. Originally starting out as an effort to revise The Living Bible, the project evolved into a new English translation from Hebrew and Greek texts. Some stylistic influences of The Living Bible remained in the first edition (1996), but these are less evident in the second and third editions (2004, 2007).

Language existed long before writing, emerging probably simultaneously with sapience, abstract thought and the Genus Homo. In my opinion, the signature event that separated the emergence of palaeohumans from their anthropoid progenitors was not tool-making but a rudimentary oral communication that replaced the hoots and gestures still used by lower primates.
