Property Rights And Regulatory Systems

What are data rights? "Data rights" refer to the Government's nonexclusive license rights in two categories of valuable intellectual property, "technical data" and "computer software" delivered by contractors under civilian agency and DoD contracts.

DISA - Data Rights/Intellectual Property

Property rights are theoretical socially-enforced constructs in economics for determining how a resource or economic good is used and owned. Resources can be owned by (and hence be the property of) individuals, associations or governments. Property rights can be viewed as an attribute of an economic good. This attribute has four broad components and is often referred to as a bundle of rights:

CBP can detain and seize imported goods which violate intellectual property rights in the United States. As an intellectual property right owner, you can partner with CBP to help protect your registered and recorded rights. There are several steps you can take which can help protect your intellectual property. Step 1: Read these publications which explain how to work with CBP

How CBP Can Help Protect Intellectual Property Rights | U ...

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. Intellectual property encompasses two types of rights: industrial property rights (trademarks, patents, designations of origin, industrial designs and models) and copyright. It was not until the 19th century that the term "intellectual property" began to be used, and not until the ...
