Introduction A public utility (usually just utility) is an organization that maintains the infrastructure for a public service. State provision of utility services (like electricity, gas, water, district heating, waste management etc.) often resulted in inefficiency and poor service quality. Trend towards liberalization, deregulation and privatization of public utilities encouraging competition ...

## **IE02 SAP Transaction code - Change Equipment**

Introduction to SAP ABAP on HANA. We have heard enough about SAP HANA, in-memory concept, software/hardware innovation etc. In this article, we do not want to beat around the theories. As an ABAP developer, we would like to know how we can view ABAP objects (programs/FMs/tables) in HANA Studio and how we can create/change those objects there.
