Mitered edges are commonly used to create a seamless flow from a countertop slab to a waterfall panel that extends to the floor. A mitered edge can also be used to add more stone to the underside of a countertop slab creating a distinguished look through the illusion of a thicker slab.

What is a Mitered Edge Profile? | Surface One

Exterior house wall decorations can be a way to make your house stand out from the surrounding houses in your neighborhood. This can be helpful to you and to people to whom you are giving directions, especially if you live in a subdivision where all the homes are remarkably similar.

Let's be honest. The old adage, 'Not everything that glitters is gold' applies today more than ever before. With the speed at which modern design trends come and go, it's vitally important to incorporate the truly 'golden' trends into your interiors, whilst letting the merely 'glittering' ones pass you by.

Top tip: Remember most wallpapers are only available for sale for 2-3 years, sometimes shorter, so if you are planning to use the same wallpaper in multiple places or on a big project always make sure you have enough when you start the project. It often pays to buy an extra roll in case you need a little more later. A selection of wallpaper collections released in 2019:
