

The Politics Of Global Governance

The Politics Of Global Governance

Global politics, also known as world politics, names both the discipline that studies the political and economical patterns of the world and the field that is being studied. At the centre of that field are the different processes of political globalization in relation to questions of social power.. The discipline studies the relationships between cities, nation-states, shell-states ...

Global politics - Wikipedia

Global governance or world governance is a movement towards political cooperation among transnational actors, aimed at negotiating responses to problems that affect more than one state or region. Institutions of global governance—the United Nations, the International Criminal Court, the World Bank, etc.—tend to have limited or demarcated power to enforce compliance.
