### **Working With Difficult Patients From**

The doctor-patient relationship has sometimes been characterized as silencing the voice of patients. It is now widely agreed that putting patients at the centre of healthcare, by trying to provide a consistent, informative and respectful service to patients, will improve both outcomes and patient satisfaction. When patients are not at the centre of healthcare, when institutional procedures and ...

Terminating Patients From a Practice Physicians need to be careful when dismissing patients from their care. Ms. Hill says the only legal requirement physicians must meet when terminating a relationship with a patient is that they avoid abandonment, which may result in civil liability for the physician.
